Maciej Harbuz

CTO / Architect / Programmer

Resume Summary

As a technology leader with over 15 years of experience in e-commerce and development, I specialize in designing and overseeing complex, scalable platforms that enable business growth. My experience includes technical architecture, team leadership, and strategic decision-making related to creating high-performance engineering cultures

Work Experience

2024.12 - present

Solution Architect – TRS / QualityKiosk

Led the development of a comprehensive One Stop Shop system for Saudi Awwal Bank, enabling customers to access all banking services through a single unified platform. The solution integrates multiple banking services, including account management, investments, and transactions, while ensuring robust security measures and compliance with banking regulations.

2022.01 - 2025.02

CTO – FLHF SA

In my role as CTO at FLHF, I was responsible for overseeing the development and maintenance of a variety of systems, including B2C eCommerce (Magento 2), B2B eCommerce (Solex), Akeneo PIM and a wide range of marketplace integrations (ManoMano, Home24, CDon, Allegro, Amazon, CDiscount, Conforama, eBay, Wayfair). Additionally, I oversee the ERP system (Verto), ensuring that it is fully integrated with our eCommerce platforms and that all data is flowing smoothly between systems.

2023.05 - present

Symfony/PHP Programmer – WiseB2B

We carry out the web shop project in PHP/Symfony technology in a team of several people. During the implementation of subsequent functionalities, we try to stick to the DDD concept proposed by Eric Evans. In addition to the implementation of new functionalities, my task is to take care of the implementation of the project at the end client. I am also often tasked with optimising project performance.

2010.12 - 2021.12

CTO / Co-founder – X-Coding IT Studio

I was involved in software development, mainly in the area of eCommerce/mCommerce. I managed more than 30 people during this time. In addition to this, my responsibilities include legal, accounting and finance.

Education

2007.10 - 2012.06

Wrocław University of Technology

Master of Science

Computer Science, Faculty of Fundamental Problems of Technology
